## REPORT

This proposal has been formulated to provide road link to substantially backward area situated in a beautiful valley. It is situated in Tehsil **Banjar** Distt. Kullu (HP). This proposed road bifurcate from Banjar to Jadoli Pass Road and ends at Village Salhanu .

At present the people have to walk on foot. In rainy season that too is difficult, the area is quite rich in the production of cash crops and agriculture production such as Maize potato rice & seasonal vegetable and mainly apple etc. The land is very fertile. But heavy cost of transportation for export of surplus production and different marketing position restrain people from taking farming in a whole hearted way as such their living standard is also poor.

The construction of this road shall increase the economy of the area with the sufficient cheap and quick transportation of possible agriculture produce easy and extended marketing facilities more over availability of emergency medical help will also improve. With increased economic activity the overall living standard of the people shall also improve quickly.

Thus the construction of this motorable road is in overall public interest and demand.

Period: One year subject to availability of fund.

Mode of Execution: Departmentally/ Through Contractor.

STRUCTION OF TATTA PANI TO KHUN SALHANU  
R ROAD KM. 0/0 TO 9/400...

JUSTIFICATION FOR THE LOCATING THE PROJECT IN FOREST AREA

The proposed site for the said project has been carefully finalized after considering a total No. of three alternate sites in all the cases. The first alignment was considered at NH-305 for the **CONSTRUCTION OF TATTA PANI TO KHUN SALHANU DHAR ROAD KM. 0/0 TO 9/400**. In this case the total area worked out to be **4.90** of Forest land.

The 2<sup>nd</sup> alignment considered is approx. 700meters away from the 1<sup>st</sup> site situated on the same Road . In this case the area involved was also 5.15 Hect. But the numbers of trees standing in the site were more as compared to site no.1.

The 3<sup>rd</sup> alignment was considered at approx. 500 mtr away from the 1<sup>st</sup> and 2<sup>nd</sup> Site. But the site was not found feasible as the site was too steep and due to tough Terrain construction of the proposal was not possible; also the site was not fulfilling the purpose for which the proposal is being proposed.

The 2<sup>nd</sup> and 3<sup>rd</sup> alignments were rejected because it involved a greater number of fully grown trees as compared to 1<sup>st</sup> alignment. And also, the same were not suitable for the **CONSTRUCTION OF TATTA PANI TO KHUN SALHANU DHAR ROAD KM. 0/0 TO 9/400**.

Therefore, keeping in view, the above certain point in the favor of alignment No.1<sup>st</sup> the **CONSTRUCTION OF TATTA PANI TO KHUN SALHANU DHAR ROAD KM. 0/0 TO 9/400**. This alignment would save from huge damage to the forest as well as to environment and beautiful feature of the valley.

Ultimately the 1<sup>st</sup> alignment is finalized and adopted for the construction of proposed **CONSTRUCTION OF TATTA PANI TO KHUN SALHANU DHAR ROAD KM. 0/0 TO 9/400** which is most economical feasible best and in over all public interest as well easy for construction in all respect.

Joint inspection report of the land proposed to be diverted to HPPWD for the construction of Road from Tatta Pani to Khun Sulhanu Dhar road Km. 0/0 to 9/400 in Gram Panchayat Khadagad.

Certified that a joint inspection of demarcated/ undemarcated/ proposed forest land measuring 4.90 Hec in Sulhanu DPF, Pokhedhar DPF area required for the construction of **Tatta Pani to Khun Sulhanu road Km. 0/0 to 9/400 in Gram Panchayat Khadagad** situated in Phati Rashala and kothi Khadagad Tehsil Banjar Distt. Kullu was carried out in the presence of the user agency on dated ...26-03-2021..... Prescribed norms as provided for the construction of said road were kept into consideration. Report from field revenue agency also obtained and perused. On the basis of report, allied document and subsequent inspection of this road, it is certified that forest land Sulhanu DPF, Pokhedhar DPF proposed to be diverted is inescapable and all other alternatives for the purpose have been explored and the requirement of land proposed to be diverted is minimum. The concerned land contains trees, the details of which are enclosed separately. There is no other land available in the vicinity, which could be used for this purpose. Proposed diversion does not make any person landless/homeless. The land is not affected by any burial ground, public path, water sources, religious and common land, which is important in archeological point of view. The above link road is proposed to be constructed under NABARD and will benefit all local residents of Villages Kuthachi and Chaunt, Khun, Sulhanu.Dhar Dogri.
