

COST BENEFIT CERTIFICATE

C/o 2Lane Trans-Arunachal Highway (NH229) from Khupi Realignment segment Ch: 17.180-21.000 Km(3.80Km)

Unlike other major projects such as hydroelectric schemes, Thermal power plants, Atomic establishment etc road projects will not involve any recurrent environment pollution. It is a well known fact that without improvement/widening of roads, no development work by any agency can commence / take effectively. The road will bring the tribal populace into the real mainstream of nation and will also serve the Defence purpose. Development of roads is the major component of infrastructure. In view of all these facts, the benefit of this road can never be aptly summarized in financial terms.
