The state boundary between Madhya Pradesh and Maharashtra has been surveyed as plotted up by the local officials on the ground, but has not been verified by the Government concerned.
In Madhya Pradesh, the letter 'd' has frequently the sound of 'r'; 'y' invariably the sound of 'r'; and 'v' invariably that of 'w', when in initial letter and of a when otherwise placed.
Unsettled roads and cart-roads in this sheet are generally measurable in dry season.
Towns shown dry in this sheet usually contain water from July to December.
Common forest boundaries have not been shown for want of reliable information.

Scale 1:50,000
Published under the direction of the Survey General of India, 1975.

HEIGHTS & CONTOURS IN METRES
CONTOUR INTERVAL: 20 METRES

Water features are shown in blue where they generally connect water.
Coloured areas are indicated yellow for the interior boundaries of areas of Reserved or Protected Forests and shown by green (shaded) for the exterior boundaries.
Contours are approximate.
A relative height, 'R', represents the approximate height of a place, between the top and bottom of a steep slope.
Shaded areas are indicated green (shaded) for the interior boundaries of areas of Reserved or Protected Forests and shown by green (shaded) for the exterior boundaries.
Contours are approximate.
A relative height, 'R', represents the approximate height of a place, between the top and bottom of a steep slope.
Shaded areas are indicated green (shaded) for the interior boundaries of areas of Reserved or Protected Forests and shown by green (shaded) for the exterior boundaries.
