

JUSTIFICATION

The relocation of forest village Karmajhiri is vital for the development of the grassland for wildlife management. Karmajhiri village is just adjacent to the Pench National Park boundary and villagers of Karmajhiri are facing lot of wildlife movements in their agricultural crops resulting losses to a great extent. Besides its, situated in the remotest area, they are deprived of basic facilities. People are willingly came forward to go for the relocation after looking into the all prospects of the village relocation. The relocation of the villagers of Karmajhiri village is going to be on both conditions, land in lieu of lands or cash in lieu of land. The relocation of villagers from Karmajhiri village is definitely improve their social and economic status on one side and will develop a extensive grassland for herbivores on another side.
