

ALTERNATIVE FOREST LAND AREA

HARISTHALA STATE FOREST

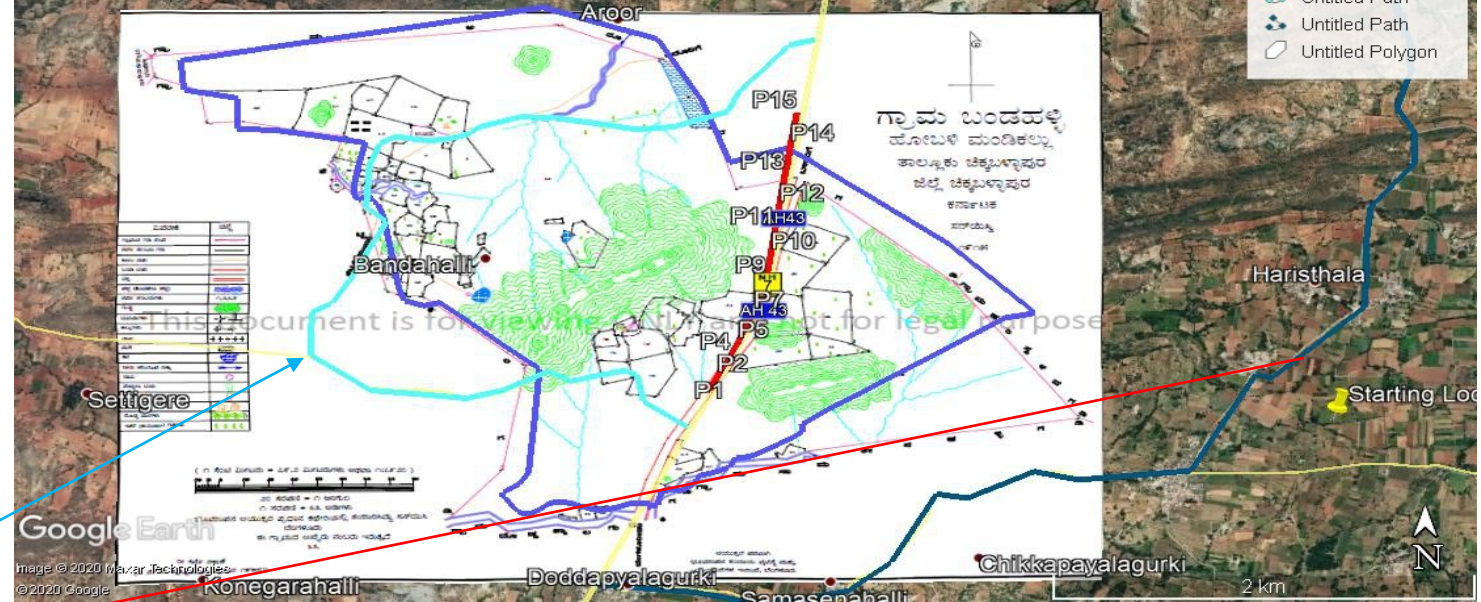

PROPOSED AERA 0.15 Hectare

TOPO SHEET No D43 R-14

- The objective of the project is to provide secondary Treated Water empty lakes to recharge the ground water table .
- Proposed alignment of the pipe line area is very essential to reach the delivery point to fill the water to empty lake
- We have examined the alternative alignment to avoid the forest area:
- 1st Alternate**
- 1st Alignment is very lengthy to reach the delivery location and also increases the pumping energy which is cost effective and also it crosses through the forest area to the reach the delivery point.
- 2nd Alternate :**
- 2nd Alignment is lengthy to reach the delivery location and also increases the pumping energy which is cost effective and it crosses through the forest area to the reach the delivery point.
