NOTES

Height in feet and above Indian mean sea level
Contours are approximate
Tides, shown only, in this area usually extend from June to November
Tide marks are indicated throughout the area, with the maximum tide level shown
The area adjoining the Yamuna River is liable to change owing to continual fluctuations in the course of the river
A yellow height (e.g., 25) marked along a drain, indicates the height of the top of the drain embankment above the adjacent country
Unsurveyed roads and canals along canals are indicated by dotted lines in the section
The village boundaries, other than those and unsurveyed roads are generally indicated in the section
3,000-acre intercalibration zones of District Census Project Survey are shown as hatched border-marks
near the 1:50,000 scale

COMPLETION INDEX

A Surveyed during 1950-51. Updated for major details during 1950-51.

Executive Engineer, T.S. Panigrahi

Division, Haryana

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 4° East in 2000.

(increasing by about 1° annually)

Scale 1:50,000

500 = 1/25 miles

2 cm to 1 km

CONTOUR INTERVAL, 10 METRES
