

## **JUSTIFICATION**

Govt. has allotted 79.400 Ac. of land in village Gothapatna under Bhubaneswar Tahasil of Khordha District for establishment of industries, in the year 2016. Since, there is no connectivity (approach road) to that patch of land, this new Industrial Area has remained un-utilised although, it has been allotted to some entrepreneurs.

This new patch Industrial area is separated from the old Industrial Area in Gothapatna village by a plantation of species like Accacia, Chakhunda, Cashew etc. The growth of which is not at all promising in view of Morum / Stony soil.

The proposed approached road has been aligned keeping in mind, the minimum use of forest land with poor growth and to establish connectivity between 2 (two) Industrial Area in Gothapatna. Against the proposal Forest Land a good quality non forest land, which is very much suitable for plantation has been taken.
