

KERALA State Electricity Board Ltd.

Kallara Section

Earlier we have submitted proposal vide Number- FP/KL/VELEC/23342/2016. During the field inspection of the Chief Conservator of Forests(SC), it is pointed that the area need to be diverted is Young Acacia Plantation. Tree felling and lopping is to be carried out if line is drawn as proposed. Hence he recommended that user Agency should plan for UG Cable instead of overhead line. So we hereby submitted a new proposal as suggested.
