Transport of Mineral Proposed to be Raised from the Mining Lease

Dear Sir/Madam,

It has been envisaged that the Run-of-Mine (ROM) shall be sorted out in saleable, sub-grade and rejects at the pit mouth, and it will be properly staked.

The saleable mineral will be transported to the byers especially steel plants and the mineral will be transported by the byers by their own means.

There is high demand of manganese ore in steel industries.

Sincerely yours,

For, M/s Shanti G. D. Ispat and Power Pvt. Ltd.
