NOTES

Height in feet and always Indian mean sea level.
Contours are approximate.
A relative height, 3 represents the approximate height, in metres, between the top and bottom of a steep slope.
In Mumbai, the letter 'c' has the meaning of 'city' and 'city' is invariably that of 'c' when an entire area and not a small area is shown.
Tanks, shown dry, in this area usually contain water from July to October.
Unsettled roads, in this area, are generally unpaved and not suitable for heavy traffic.
Wells and tube-wells are shown only if they are important and have been shown.
