*Water features are shown in blue where they generally contain water.

*Cultivated areas are coloured yellow.

*The exterior boundaries of areas of Reserved or Protected Forests are shown by green: islands.

Contours are approximate.

A relative height: do. represents the approximate height in metres, between the top and bottom of a steep slope.

*Wooded areas are coloured green. Scattered trees and other vegetation are in green, not prominent surveyed trees are in black.

*Not applicable.

Mts are numerous: some have been omitted to bring out their relative distribution.

Wells are numerous: only the important ones have been shown.

Most of the unmetalled roads are metalled, and all the roads are passable in dry season.

The kilometre scale numbers along roads are shown in black type, e.g. 3, where mile numbers are shown in light type, e.g. 3.

The Kerala-Tamil Nadu boundary has been surveyed as pointed out by the local officials on the ground, but has not been verified by the Governments concerned.

Permission to use the roads in States is required from the State authorities.
