NOTES

Heights are in metres and above Indian mean sea level. Contours are approximate.
 A relative height, e.g., 5', represents the approximate height, in metres, between the top and bottom of a steep slope.
 The kilometre stone numbers along the railways are shown in slant type, e.g., '5' whereas milestone numbers are shown in upright type, e.g., '5'.
 Unmetalled roads and cart-tracks along canal alignments are usually not shown. Permission to use these is required from the irrigation authorities. Other unmetalled roads in this sheet are not shown.
 A relative height, e.g., 5', marked along a canal, indicates the height of the top of the canal embankment above the adjacent country.
 Tanks, shown dry, in this sheet usually contain water from July to January.
