

JUSTIFICATION

The Ranpada habitation of village Kauncha of Kauncha Patelad is located on the border of Dadra & Nagar Haveli. The entire route is passing from forest land. The people here lack the basis school facilities. The nearest school is 3.50 kms away from the habitation. The available private lands were submerged under the Damanganga reservoir. There is no alternate location except the proposed location for construction of school building. As per the Right to education Act it is compulsory to provide school within 1 Km surrounding area of Habitation. So there is no option to construct the primary school except within the forest land.
