

FULL JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST AREA
(UN-AVOIDANCE OF THE FOREST AREA FOR THE PURPOSE)

The existing road stretch from Km 0/0 to Km 5/5 is a Single Lane Earthen road passing through RF area over a length of 4.945 Km and it was damaged at many places due to frequent floods in the forest area leading to un-connectivity to the remote habitations. There is no alternate path from 0/0 to Km 5/5 other than this road to connect the remote Habitats of Mutharam Seetharampuram & hamlets., with Mandal headquarter at Venkatapuram and District head quarters at Mulugu with help of NH 163. The road connects SH 12 at km 0/0 and ends at Seetharampuram village & Chattisgarh state border.

Further the main objective of this road construction is to combat the left wing extremism in the area effectively by providing road network fit for brisk movement of CRPF and State forces and for smooth movement of heavy armed vehicles.

This road connects remote villages with Mandal head quarter at Venkatapuram, ITDA headquarters at Eturnagaram and District headquarters at Mulugu, which helps the public to cater their essential needs such as medical, education, employment, marketing etc. and thus improves the socio-economic status of the tribes and helps to detract the public from attraction towards left wing extremism.

The existing Earthen road is proposed to develop to BT standard of 3.75. mts width, and the proposed width of diversion is 5.00 Mtrs and the same is proposed for Upgradation of existing road. The present area of Diversion required 2.472 Ha. Hence, the diversion proposal of **2.472Ha** is initiated with this proposal.

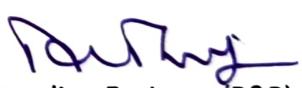

Date: 27- 03 -2021

Place:Mulugu.
