Justification

Reliance JIO Infocomm Ltd. (JIO) is an Indian Mobil network operator. Owned by the Reliance Industries, and HQ in Navi Mumbai, Maharashtra. It operates national LTE network with coverage across all 22 Telecom circles. JIO soft launched on 27 Dec 2015. Now it is 3rd. largest mobile network operator in India & 19 largest Mobil network operator I the word.

Reliance Industries Led. has lunched line broadband service named as Giga fibber On 5Th July 2018 .The main aim of company to provide the mobile service & 4 G & 5 G internet data service in all over Indian villages. To provide network, there is need

network of Towers connected by OFC duct & cable. So detailed survey of existing roads have been done for laying of underground the OFC duct & cable within ROW of road MDR 17, where the maximum area will be covered for mobile network and also easy maintain for long period. The Company as applied to do work within 0.00 Km to 28.5 km ROW of road MDR 17 Kalmgaon to Kumbhraosh, as per resolution issued by the Govt. of Maharashtra. The Executive Engineer, Public Works (West) Division Satara has sanction permission for laying of underground OFC duct & cable within the ROW of existing road, MDR 17 by order no Jk no DB/4708/ 2019 Dt. 20/05/2019. As same part of existing road passing through the Forest Land. And there need the prior permission from competent authority for Laying of underground OFC duct & cable within the Row of the existing road MDR 17.

The proposed laying of underground OFC duct & cable s within ROW of existing roads MDR 17 passing from the forest land in Satara Dist. is as under,

The OFC cable will be laid by digging trench of size 0.45 mt. wide and depth below 1.40 mt. & in one trench two duct pipe will be laid, & out of which one duct pipe is use for OFC cable. After laying of pipe the trench will be refilled. In this work there is no need to cutting of trees for this works

Project authority submits that, cost of C.A. may not be levied in this proposal as the proposed laying of OFC cable within RoW of existing road, road passing outside National Park & WL. Sanctuary area & no need to

cutting of trees, which fulfil the conditions given in MoEF&CC guideline no FC-11 /165/2019- FC, Dt. 27Th. July 2020

To establish the network of Tower and connecting underground OFC cable is the most important factor. To this work as the P.W.D has given sanction to for laying of underground OFC duct & cable within the Row of road MDR 17, including road passing from Forest Land. But P. A has aware that even through the P.W. D has given permission for this work. There is need to take prior approval under F. C. Act 1980. From the Central Govt. P.A. has not started work on forest land and it will be done after the sanction from the Govt.

There is no alternative other than this alignment, the required forest land for laying of underground OFC cable is barest minimum. Project Authority will start work on forestland after sanction from State Govt. Hence this proposal is submitted for sanction under F.C.A 1980.
