NOTES

Heights and Contours have not been shown.  
A relative height, e.g., 8, represents the approximate height, in metres, between the top and bottom of a steep slope.  
The State boundary between Assam and Meghalaya shown in this map is as interpreted from the North Eastern area (Reorganisation) Act, 1971 but has yet to be verified.  
Name and boundaries of subdivisions of Garo Hills District, in this sheet, have not been shown for want of reliable information.  
John or temporarily cultivated areas occur throughout the jungle; they are normally abandoned after 2-3 years and are not shown.
