Justification for construction of road in the forest land

This is to certify that the proposed diversion road to be constructed through the forest land near Hanuman Temple in Medhauli village will certainly reduce and avoid the situation of traffic jam and congestion on the existing road, connecting to Jayant to Singrauli through Medhauli village, which was constructed prior to 1980. Since the width of the earlier constructed road is not sufficient to cater the present volume of traffic, the above diversion is essential and cannot be located to any other place. With the construction of this diversion road the existing public road will be certainly safer and beneficial for the public of the surrounding area.
