

## JUSTIFICATION REPORT

Name of work: Upgradation of GNT Road to New Erumavettipalayam road in Thiruvallur District km 2/350 – 4/100.

The total length of GNT road to New Erumavettipalayam road Km. 0/0 – 7/3 (i.e) is 7.300Kms. From Km. 2/350 – 4/100 lies in forest area for the length of 1684 Kms (width 5.50m). The existing surface of the road is WBM surface. The mentioned road is very much useful to the people those who are living in the habitation of New Erumavettipalayam. The GNT road to New Erumavettipalayam road Km. 0/0 – 7/300 is maintained by Thiruvallur (H), C&M Division. The total population of New Erumavettipalayam is 1654 (as per censuses 2011). Now the people of above habitation are very much struggling for going to Public Distribution shop, school and hospital and Market no connectivity by all-weather roads to that habitation. Since, relaying of this road the people would very much benefit to schooling, marketing and hospital purpose. Vehicle movement will help the social economic development of the individuals. So, the relaying of the "GNT road to new Erumavettipalayam road Km.2/350 – 4/100" in Thiruvallur District is very essential one.
