JUSTIFICATION

The Backward Development Services (BDS), wangjing was established with the objective to bring all round development of the children and overall socio economic development of rural areas in the state. As a Women and Child centric organisation, we understood and realise that with mental growth, physical well being is equally important for a child to excel as a whole personality. Hence, in a stimulating environment, it is inevitable to provide wide range of extra curricular activities besides academics. This demands living area, open space, play area and play grounds for the child to play freely. Unfortunately, such big open spaces are not available in Keirak area, Kakching District where the Children Home for the orphans, destitute and neglected children is to be established and run.

Hence, we seek to approach the forest department for forest clearance in the larger interest of the children in need of care and protection.
