The triangulated heights and contours in this sheet have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them.

A relative height, e.g., 30, marked along a canal indicates the height of the top of the canal embankment above the adjacent country.

The state boundary between Bihar and Orissa States has been surveyed as pointed out by the local officials on the ground (but has not been verified by the Government of Orissa).
