7th May 2018

To

Additional Principal Chief Conservator of Forest & Nodal Officer,
FCA 1980, Aranya Bhavan,
Madical Collage Road, Raipur CG

Respected Sir,

**Sub: Our justification for use of Forest Land for Transmission line for Mahan SHP III for 132 kV
Transmission line at Odagi and Prathappur Range
Ref : CREDA's Sanction Letter No. 3410 dated 02.11.2007 and Extension letter No. 2113/CREDA/
SHP/SMD/2018-19 dated 26.04.2018**

We are developing Mahan SHP III, 24.75 MW Hydro Power Plant on River MAHAN near Chikni Village, Odagi Taluk, Surajpur District. We are having Power evacuation approval from CSPTCL for connecting our line to Pratappur Sub Station.

We worked out three alternate routes for our 132 kV transmission line. We have put our best effort to avoid Forest land. We are left with no option other than passing through forest land. We opted for the route where we are using minimum forest land. We confirm that this is the route, where we are utilising minimum forest land.

Thanking you,

Yours Faithfully,
For Venika Hydro Projects Private limited,

P. Kamath
Project Head

CC: Divisional Forest Officer- Surajpur
