PUBLIC WORKS DEPARTMENT**

Chief Engineer C&B (North East)  
PWD Bhavan 3<sup>rd</sup> Floor, Old Jewaragi Road  
Kalaburgi

Executive Engineer,  
PWD Division,  
Arab Mohella, Hyderabad Road  
Raichur

No.EE/PWD/DN/RCR/TS-3/2022-23/024

Date: 04-05-2022

**Alternative Alignment Study Report**

**Alternative for Alignment 1:**

Reasons for Rejection

- The total length of the road is more than 12 km as compared to the finalized length of 2.6 Km between Anaveri and Kachapura villages.
- The Project is not economical and consists of shifting village settlements.
- More travelling time and fuel consumption and hence more impact on environment.

**Alternative for Alignment 2:**

Reasons for Rejection

- Road gradient of smooth vehicular moments is not possible.
- Maximum forest area will be disturbed.
- In order to maintain the road gradient existing ground profile to be modified which disturbs the existing forest environment.

**Alternative for Alignment 3:**

Reasons for accepting.

- There is an existing road from years between Anaveri and Kachapura village.
- Less vegetative area.
- Perfect gradient for road construction is readily available.
- Distance between Anaveri and Kachapura villages is less.

Yours faithfully,

EXECUTIVE ENGINEER,  
PWD Division, RAICHUR.
