**NOTES**

Heights are in metres and above Indian mean sea level.  
Contours are represented by a line with a short tick on the side.  
Contour height, e.g., 20, represents the approximate height, in metres, between the top and bottom of a steep slope.  
The numerical numbers along contours, roads, and railways are shown in short type, e.g., "20" where the numbers are shown in upright type, e.g., "20".  
Unrepresented roads and tracks in the sheet are generally unrepresentable to dry season. Permission to use these roads is required from the appropriate authorities.  
Wells and tub-wells are represented throughout the sheet only the important ones have been shown.  
The common boundaries of the Reserved Forest have not been shown for want of reliable information. Details, where given, in the sheet usually comprise water from July to December.
