 NW 15 National Highway No. 15

**NOTES**  
 shown dry, in this area usually contain water from July to December.  
 Distance stones are 1000 feet apart and every existing fifth stone is shown.  
 True height, e.g. marked along a canal indicates the height of top of the canal embankment  
 the adjacent country.  
 tion to use unmetalled road and cart-tracks along canal is required from irrigation authorities.  
 If the unmetalled road symbols indicate open tanks called kund, which contains collection of canal  
 the boundary between Punjab and Rajasthan state has been surveyed as pointed out by local  
 on the ground but has not been verified by the Government concerned.  
 True height, e.g. represents the approximate height in meters, between the top and bottom of  
 slope.  
 s and Contours have not been shown.  
 ink buildings are shown in black.  
 closed boundary in the adjoining sheet in Administrative Index has not been shown.

**REPRODUCTION INDEX**  
 A. Surveyed during 1956-57. Updated for major details during 2004-05.

Projection - UTM Datum - WGS 84  
 Magnetic Variation from True North about 1° East in 2005.  
 (Increasing by about 1" annually)

Scale 1:50,000  
 500 m to 1 cm  
 2 cm to 1 km  
 2 Kilometers
