## APPENDIX-I

### JUSTIFICATION OF LOCATING THE PROJECT IN THE FOREST AREA

CRPF primarily deal with internal security of the country including Left Wing Extremism and the given location of the project is surrounded by districts like East Singhbhum, West Singhbhum, Khunti, Ranchi etc. which have been homes of the dreaded Maoists and their top leaders. The Sub Units of the CRPF 157 Bn are deployed in 4 different districts like Ranchi, Khunti, Saraikela and East Singhbhum thereby requiring a quick and hassle free movement from and to the Headquarter. The given location will work as a nodal point for all these Sub-Units and Command, Control and Communication will be smooth and timely for the operational requirement of the Battalion.

The detailed justification of locating the project in the Forest Area is given below: -

- 1) The CRPF 157 Bn, Adityapur needs a plot (4.97) hectare to set-up its Battalion camping site to accommodate Administrative Building and other infrastructure like Barracks, Hospital, Quarter Guard, Unit Canteen, Play Ground, Training Ground, Parade Ground etc. These requirements are being fulfilled by the given location of the project.
- 2) The Battalion needs quick and hassle free movement to the Jungles and other districts and the given location suits this need of the CRPF.
- 3) The Battalion, presently located in Polytechnic College, is serving in very less & tentage accommodation lacking all basic amenities and does not have the sport facilities and green environment whereas the CRPF personnel are performing highly challenging job of Anti-Naxal Operations and need to have proper living accommodation, proper space and other recreational facilities of which they are devoid of since long time.
- 4) The plot is well connected through roads as well as Railways. Thus, it is easy for the Battalion to properly maintain its logistic needs and supplies.
- 5) The Battalion will pave the way of progress of the local tribal population by removing the gap between rural and urban areas. Since the CRPF operates from both rural and urban areas, it will create a link whereby the rural student, labourers etc. will come forward and set the modern standard of life for themselves.
- 6) The CRPF will further contribute in the deployment of the area by its constructive Civic Action Programme, Skill Development Programme, Free Health Check Camps, Environment Protection Programme, PT and Sports Competition, Swachhata Abhiyan, Vriksharopan, Shramdan etc. Thus, setting new dimension of development which it has already done wherever the CRPF has been given an opportunity to serve.
