

# Madhya Pradesh Urban Development Company Limited

## Project Implementation Unit, Jabalpur

---

### **Justification for locating the project in Forest Land for Bhedaghat**

The project namely **“Improvement of Water supply in Bhedaghat, Katangi, Patan, Majholi & Panagar Nagar Parishads and Sihora Nagar Palika in Jabalpur District and Tendukheda Nagar Parishad in Damoh District in Madhya Pradesh under contract package MPUSIP pkg 5B”** is proposed to provide an adequate and metered drinking water supply to all urban households. For **Bhedaghat, Nagar Parishad** water taking from Narmada River as the source. The objective under water supply scheme is to cover entire town including new/upcoming area, upgrading area, slums etc with sustainable drinking water supply facilities to their doorstep. The lifted water can be send to water treatment plant and then treated water will be supplied to community. Hence permission is requested.

The Clear Water Feeder Main pipeline is proposed on the edge of R.O.W. of existing P.W.D. road. Since the road is through Forest region, there is no other alternative to take the Clear Water Feeder Main pipeline.
