PROJECT NOTE

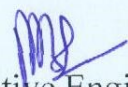

Scheme- National Rural Water Supply Program
Project Authority- Executive Engineer, Rural Water
Supply Division Zillha parishad, Kolhapur.

Diversion of forest land for Drinking Water Supply Pipe Line
At village Vekhandwadi (Badewadi) F.G. No-185,186 Forest Land
Tal. Panhala, Dist. Kolhapur. Drinking Water Pipe Line
Forest.G.NO:185 (Length 801.48mtrX2mtr=1602.96sqmtr=
0.1603Ha), F.G. No-186(Length 25.84 X 2mt = 51.68=0.0052)
Total Forest Area=0.1655Ha

Vekhandwadi (Badewadi) is located in Rural area. In
Vekhandwadi Approximate 700 villagers are staying for
agricultural And other Purpose. In Vekhandwadi Every year in
month of December to June the Natural Water Spring get dry up so
there will be no drinking water is available for Vekhandwadi
villagers and also for Cow, buffalo, other pet animals. Right now
the population of Vekhandwadi villagers are increasing. So for
these reason also they get less drinking water. Therefore, they
required this Drinking Water Supply Scheme.

So, Above Providing of Drinking Water Supply Pipe Line
Program is Most Important Essential Requirement for all villagers
and Pet Animals.
