

Justification for locating the Project in forest land and details of alternates examined

Page Industry Ltd. has been allotted with 28.047 Ac of non forest land for establishment of industry for garment manufacture. A small patch of forest land measuring 0.296 hact. (0.733 Ac.) intervenes between two patches of project land for which connectivity is blocked, men & materials can not move to the project land unless the land is diverted for the construction of the approach road. Since, there is no other suitable alternative land is available, the diversion of the aforesaid forest land is the only option.
