Date of Proposal:

JUSTIFICATION FOR THE LOCATING THE PROJECT IN FOREST AREA

The construction of helipad is very fruitful for the tourism development of Spiti valley. There is no project like this in entire Spiti, Lahul & Spiti District HP. The private land is unavailable for the said purpose, so it is not possible to avoid forest land during construction of the project. Three different sites were explored for construction of the above mentioned project.

1st alternative site was rejected due to steep gradient and the maximum forest land involve in this project.

2nd alternative site was rejected due to large number of trees involved in this project.

3rd Final site is adopted as the gradient is reasonable and minimum forest land is involved and no tree involved in this site.

It is certified that every possibility has been explored for alternative site and it has been considered that the third site is final and alternative sites has been rejected in favour of proposed site.
