REFERENCE

NH 64 National Highway No. 64.

NOTES

Permission to use cart-tracks and unmetalled roads along canals is required from the irrigation authorities. A relative height, e.g., 5r, represents the approximate height, in metres, between the top and bottom of a steep slope. Distance stones along Kotla Branch (SIRIND CANAL) and east edge of Hadlaya Branch (SIRIND CANAL) are 5000 feet apart and every existing one is shown whereas along other canals and drains, these are 1000 feet apart and every existing fifth stone is shown. A relative height, e.g., 5r, marked along a canal indicates the height of the top of the canal embankment above the adjacent country. Tanks, shown dry, in this area usually contain water from July to December. Tube-wells are numerous throughout the sheet, only the important ones have been shown. The administrative boundaries and names have been brought up-to-date to 2007.

COMPILATION INDEX

A. Compiled from 1:25,000 survey, 1986-87. Updated for major details during 2005-06.

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 1° East in 2005. (Increasing by about 1' annually).

1:50,000
