

### PROJECT NOTE

Scheme- National Rural Water Supply Program  
Project Authority- Executive Engineer, Rural Water  
Supply Division Zilla parishad, Kolhapur.  
Proposal of Forest Conservation Act 1980.

Diversion of forest land for Drinking Water Supply Pipe Line at village Badewadi The pipe line passes through F.G.No.185,187. Tal:-Panhala District:-Kolhapur.

Area.0.0452Ha.(PipeLineLength226mtrX1.90mtr=429sqmtr=  
0.0429 Ha and Water RCC Chamber 2 X 2.50 mtr =5sqmtr=  
0.0005Ha & RCC Chamber wall (Bandhara) 12m X 1.50mt  
=18sqmt.)0.0018Ha.

Drinking Water supply Pipe Line Passes Through Private SurveyNo.182,181,175,174,172,189,191,193,194,198,224,164,156,155,237,238,143,141 Length-1055.60 rmt Width-2mt, Total Area-0.211Ha.

Badewadi is located in Rural area. In Badewadi Approximate 700 villagers are staying for agricultural And other Purpose. In Badewadi Every year in month of December to June the Natural Water Spring get dry up, so there will be no drinking water is available for villagers and also for Cow, buffalo, other pet animals.

Also currently the population of Badewadi villagers are increasing So for these reason they get less drinking water. There is no alternative.

So We wants to make a proposal of Forest Conservation Act 1980. This proposal is necessary for this project.

So, Above Providing of Drinking Water Supply Pipe line Program is Most Important Essential Requirement for all villagers, Students and Pets & Animals.
