NOTES

Heights are in metres and above Indian mean sea level. Contours are approximate. The common boundaries of some Reserved and Protected Forests have not been shown for want of reliable information. The kilometre scale numbers along roads and the railway are shown in slant type, e.g. '5' whereas milestone numbers are shown in upright type e.g. '5'. The triangulated heights and contours in this sheet have not been adjusted to the heights of the spirit levelled bench-marks and may not be strictly in accordance with them. A relative height, Δ , represents the approximate height, in metres, between the top and bottom of a steep slope. The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribands.
