

Rehabilitation and Resettlement Plan for Project Affected Persons

Due to construction of Sambarkund Storage tank, 3 villages (Khairwadi, Jambhulwadi and Sambarkund wadi) will be affected. The families from these villages will be rehabilitated as per 'Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013'.

Proper compensation package is planned and will be provided to the project affected population. The trauma will remain till the farmer gets the compensation and livelihood source in case of the farmers which have lost their entire land and proper rehabilitation and resettlement for the people who have lost their houses. Therefore, this impact will be Temporary High negative impact.

The project consists of right bank canal, left bank canal.

Right Bank Canal – 15 km

Left Bank Canal – 5 km

Area under project is as follows: -

Land required for resettlement

The total affected families are 199 having population of 1098 souls. These families would be relocated in village Ramraj(Ramraj). Th land required for new gaathan is as below:

Resettlement	No. of families	Land required for resettlement			
		Land required for gaithan	Land required for public facilities (50%)	Land required for future expansion	Total Land required
1	2	3	4	5	6
Khairwadi	117	5.00	5.76	0.76	11.52
Jambhulwadi	45	4.00	2.21	0.43	4.43
Sambarkund wadi	37	3.00	1.54	0.64	3.64
Total	199	12.00	9.57	1.83	19.61

Area shown above is based on the list of families supplied by village panchayat. The affected people hasdemanded that the resettlement should assume that the person above 21 years should be considered as a family. The land selected for resettlement is undulated, hence more land will be required than the calculated area.

PAP's Choice/preference for resettlement

A survey has been carried out for the selection of required land for shifting all the PAP's. The site selection is mainly based on the preference in general given by PAP's relocation. This information is collected from all the families, which are to be ousted from the villages going under submergence.

Name of village	Choice for resettlement/No. of families given the choice
Khairwadi	Ramraj – 117
Jambhulwadi	Ramraj – 45
Sambarkund wadi	Ramraj – 37
Total	Ramraj -199

199 affected families are willing to move at sites selected by PAP's at Ramraj gaathan.

Availability of land for resettlement

It is necessary to acquired land for resettlement of affected peoples. The selected land is warkas land. The owner of land is ready to hand over land for resettlement

Resettlement	No. of families to be resettled	Required land	Available land (Govt. Land)	Land required for acquisition
Ramraj	199	19.61	--	19.61

Amenities and infrastructure facilities to be provided in new settlement

It is observed during survey that all the villagers are meeting their eater requirement either from river water or from open wells, bore wells. The use of electricity for domestic purpose is found to be intermittent. To provide all amenities and infrastructure, suitable Govt. lands suggested for resettlement. But villagers are demanding that for convenience of farming on balance land after acquisition rehabilitation should be at nearby area. Considering the above fact site of rehabilitation has been selected. Selected site for rehabilitation is undulated. Extra expenditure will be occurred to level the sad site, approach road, drinking water facility.

Probable expenditure of rehabilitation of PAP's

The submergence area of Sambarkund Medium Project Taluka Alibag, District Raigad includes 3 wadis. The total affected families are 199 having population of 1098 souls. Mouje Ramraj Taluka Alibag has been selected as rehabilitation site by Project Affected Villages. All the existing will be under submergence and some farming land will remain which will not be under acquisition. For convenience of farming on balance land, project affected farmers has selected rehabilitation site at downstream of dam at village Ramraj. The said site is undulated; hence extra expenditure will occur for site leveling, approach roads and drinking water facilities. Existing approach road is 1 to 1.5 km away from proposed rehabilitation site. To provide electricity to proposed rehabilitation site approximate 1 to 1.5 km, separate electric line will be required.

- 1) Land for rehabilitation
- 2) Levelling of land
- 3) Cost of houses in existing gaathan
- 4) Construction of approach road
- 5) Construction of internal gutter

- 6) Supply of drinking water
- 7) Public toilet
