SURVEY OF INDIA

1st Edition 2011.

Price : Rs.118/-

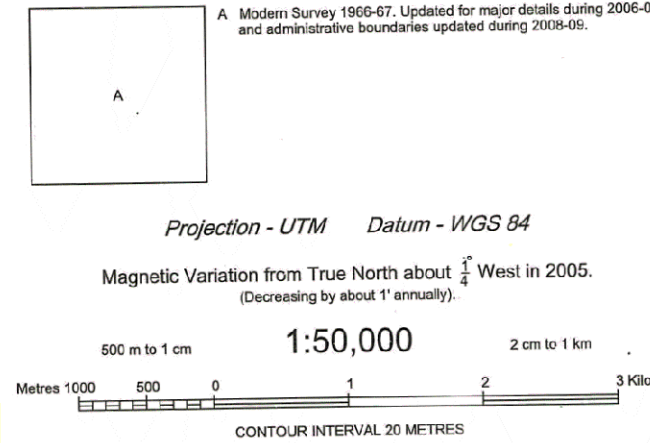

CONVENTIONAL SYMBOLS

NOTES :-

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, e.g., 20 represents the approximate height, in metres, between the top and bottom of a steep slope.
Non-perennial portion of the Ghaghhar Reservoir is generally cultivated.
Tanks, shown in this area usually contain water from July to March.
Wells are numerous in the plain area of the sheet; only the important one have been shown.
All unmetalled roads and cart-tracks in this sheet are generally unfordable in dry season. Permission to use those along canals is required from irrigation and forest authorities respectively.
Non-perennial canals shown in this sheet, generally carry water from July to November.
The kilometre scale numbers shown in this sheet, generally carry water from July to November.
The kilometre scale numbers shown in this sheet, generally carry water from July to November.

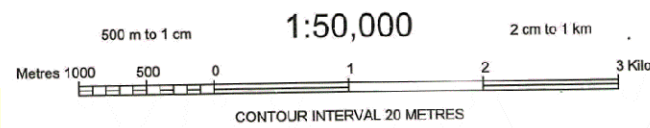

COMPILATION INDEX

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 1° West in 2005.
(Decreasing by about 1° annually).

1:50,000
