

JUSTIFICATION FOR LOCATING THE PROJECT IN PROTECTED FOREST AREA

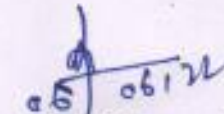

The primary objective of the **L027-T01 to Bahera (BR-05R-374)** under PMGSY road is to provide connectivity by way of an All Weather Road with necessary cross drainage structure to unconnected habitation in rural areas. The rural road connectivity helps the rural people to access the various economic and social services easily and propels the agricultural production. It also generated employment opportunity which reduces the poverty level and changes the standard of living.

The proposed road would act as the prime artery of economical flow, ensure road safety and provide better transportation facilities, vehicle operating cost will also be reduced due to road availability.

Sufficient care has been taken during the selection of road alignment to avoid forest areas. However at some location the proposed project falls in the protected forest areas and ^{division} ~~division~~ of protected forest land is unavoidable.
