ದಿನಾಂಕ: 25/06/2020

To,

The Nodal Officer and  
Addl Principal Chief Conservative of Forests,  
(Forest Conservation Bengaluru).

### JUSTIFICATION NOTE ON UNAVAILIBLTY OF ALTERNATE LOCATIONS TO DIVERTING THE FORSET LAND.

The project named DIVERSION OF FOREST LAND NEAR BHAKTHRAHALLI ARASIKERE, CHINTAMANI TALUK, CHIKKABALLAPUR DISTRICT FOR CONSTRUCTION OF HOUSING CHAMBER, LAYING OF PIPELINE & 11 KV EXPRESS FEEDER LINE FOR PROVIDING WATER SUPPLY SCHEME TO CHINTAMANI CITY WITH BHAKTHRAHALLI ARASIKERE AS SOURCE UNDER D.C. WORKS UNDER NAGAROTHA-III GRANTS IN FAVOUR OF COMMISSIONER, CMC, CHINTAMANI PROPOSAL NO.FP/KA/WATER/44628/2020 being uploaded in online e-portal. The main source of water supply to the city is from the Borewells. But, the yield in the Borewells are dwindling every year and also not sustainable for long period and city is facing acute shortage of water. Even the Borewells are drilled to a depth of about 1500 feet, the success rate is very meagri 20 to 30%. There is no perennial river in the Chikkaballapur district. Hence, it is inevitable to improve the water source from surface tank. In this regard BhaktharahalliArasikere tank is identified for supply of water to the Chintamani city. The total submergence of master balancing tank (BhaktharahalliArasikere) is 103.74 Acers. The deepest submergence area of the tank lies in forest land, hence it is feasible to construct the Housing chamber in the deepest point of the tank to utilized maximum storage water. Alternatively there is no Govt. land available for construction of housing chamber, laying of pipeline, transformer yard & providing 11 KV express line.

Thanking you,

Yours faithfully,

Municipal Commissioner,  
CMC, Chintamani.

Govt of Karnataka

## OFFICE OF THE DEPUTY COMMISSIONER,

CHIKKABALLAPUR DISTRICT, CHIKKABALLAPUR

To,

The Addl Principal Chief Conservative of Forests,  
and Nodal Officer (FCA)  
(Forest Conservation)  
Bengaluru

Respected,

Subject: Providing water supply scheme to Chinthamani city from Baktharahalli Arisikere tank as source, **Reg-Justification note on unavailability of alternate locations instead of forest land.**

Reference: Yours letter No:E-Office File No.KFD/HoFF/A5-4(GFL)/16/2020-FC E-228757 Date:03-03-2020

\*\*\*\*\*

With reference to the above subject , the project named DIVERSION OF FOREST LAND NEAR BHAKTHRAHALLI ARASIKERE, CHINTAMANI TALUK, CHIKKABALLAPUR DISTRICT FOR CONSTRUCTION OF HOUSING CHAMBER, LAYING OF PIPELINE & 11 KV EXPRESS FEEDER LINE FOR PROVIDING WATER SUPPLY SCHEME TO CHINTAMANI CITY WITH BHAKTHRAHALLI ARASIKERE AS SOURCE UNDER D.C. WORKS UNDER NAGAROTHANA-Phase-3 GRANTS IN FAVOUR OF COMMISSIONER, CMC, CHINTAMANI PROPOSAL NO.FP/KA/WATER/44628/2020 being uploaded in online e-portal. The main source of water supply to the city is from the Borewells. But, the yield in the Borewells are dwindling every year and also not sustainable for long period and city is facing acute shortage of water. Even the Borewells are drilled to a depth of about 1500 feet, the success rate is very meagre i.e., 20 to 30% and there is no perennial river in the Chikkaballapur district. Hence, it is inevitable to improve the water source from surface tank.

Further, in this regard Bhaktharahalli Arasikere tank is identified for supply of water to the Chintamani city. The total submergence of master balancing tank (Bhaktharahalli Arasikere) is 103.74 Acers. The deepest submergence area of the tank

is in forest land and it is feasible to construct the Housing chamber cum pump house in the deepest point of the tank to utilize the more storage water. There is no Govt. land & alternative land available for construction of housing chamber cum pump house, laying of pipeline, transformer yard & providing 11 KV express line other than forest land. Hence, it is requested to divert the forest land for the above said purpose as per the forest norms.

Thanking you,

Yours faithfully,  
  
Deputy Commissioner,  
Chikkaballapur District,  
Chikkaballapur.
