JUSTIFICATION LETTER

The project is located in the forest area, the land is an approved mine in the area since the year 1994. The quality of Manganese available in this area is of very high grade & quality. This land was allotted to Bhilai Steel plant in the year 1966 till the year 1986 due to good deposit in the given lease area. Twenty different mines of various scales are already operational in the area (within a radius of 10 Kms from the proposed mine) including India's best grade Manganese ore mine located at Dongribujurg very near to the lease area. The mine is expected to generate good revenue for the government in the form of Royalty & GST, it will also help in generation of good long term employment opportunity for both skilled & unskilled people of the region.
