NOTES :-

Contours are approximately 10 m intervals. The microrelief is generally smooth, with occasional small mounds and depressions. The highest and lowest elevations are in the north and south ends of the island, respectively. The top and bottom of a steep slope are marked with a black dot. The triangulation levelling and contour data are available from the U.S. Army Corps of Engineers, Fort Belvoir, Illinois. The triangulation levelling and contour data are available from the U.S. Army Corps of Engineers, Fort Belvoir, Illinois. The triangulation levelling and contour data are available from the U.S. Army Corps of Engineers, Fort Belvoir, Illinois.
