

BRIEF REPORT.

Name of project: Construction of composite check Building at Rammom ,Nayabazer in West Sikkim.

Project: Department of Tourism and Civil Aviation department, Government of Sikkim.

The state of Sikkim has been projected as the Ultimate Eco Tourism Destination .The state has large natural resources in the form of Fora, Funa and beautiful landscape i.e Mountains hills, valleys, rivers and lake which attract larger numbers of tourist .As the state has a large populations of educated peoples who are seeking employment for their daily living, the government has started laying much stress in tourism, which is a sustainable industry with lots of incoming generating capacity.

Rammom is a border outpost connecting the southern entry point of the state, Jorethang to Darjeeling in the neighboring state of West Bengal .Tourist wanting to visit South and West Sikkim from Darjeeling often enter through outpost Rammom. Hence Rammom acts as a gate way to the Sikkim on its Southern fingers. The proposed Composite check post is incorporated with the provision Border Tourist check post like Police control rooms, TIC, FRO ,Retiring rooms arms rooms ,Cafeteria etc.

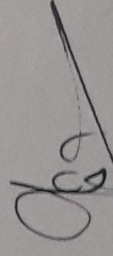

Amongst the many places of Interest for the tourist visiting the West Sikkim, to name the few is Sai Mandir at Daramdin,Singalila treeking trails, Khecholpari Lake,Pelling and Uttarey which is already a well promoted spot. It exists as a must visit point in every travel agent's itinerary of West Sikkim. It is thus not to be missed. Sai Mandir besides being a tourist destination attracts larger droves of pilgrims from all over. It lies about 20 km from Rammom. The sanctity and silence around the Sai Mandir along with its ancient aura of sacredness has a calming effect on all. It thus rejuvenates an exhausted mind and the rich forest around it offers nature's instant therapy .There are other beautiful spots that the tourist could walk to catch amazing views and be refreshed.

Knowing the intensity of tourist flow from West Bengal to the places of Sikkim, the Government has proposed to have Composite check post Building along with Cafeteria and Parking facilities at Rammom for which 0.30 Hec Forest land is required.

As the entire project falls under forest land due care has been taken adequate protective measures like avenue plantation, forestation and other required measures have been planted to protect and preserve the Forest land and the environment. And there is no any felling of trees.
