

Justification for location of the project in forest area

This is the road of a length 20.00 Km connecting to the mandal head quarters and there onto district head quarters for their medical aid, education, transportation of agricultural produces etc. By improving this road to (R&B) Standards, the people of Charla and Dummugudem Mandals will be facilitated to reach the mandal & district head quarters, for all their needs on time.

The road is passing through forest area. The forest reach is under the forest jurisdiction of Bhadrachalam North Forest Division. The road trespassing forest and non-forest areas if alternate is chosen also still passes through notified forest and leads further defragmentation. Therefore it is proposed to widening and improve the existing road.

The Telangana State Government have taken a policy decision to improve the interior roads to R&B standards vide GO Ms.No.1 TR&B (R-II) dt: 02.01.2016 .

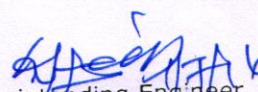

By widening the above road from single lane road, it would improve further connectivity in terms of achieving smooth and safe traffic flow with higher level of service. In addition to above, substantial economic gain in terms of reduced Vehicle Operating Cost (VOC) and reduced travel time will be achieved.

Cost of the Project: Rs 3500.00 Lakhs

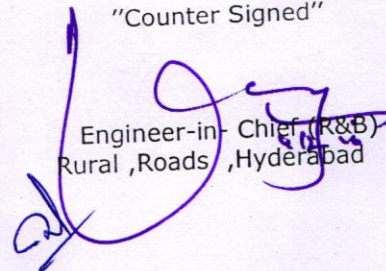

Executive Engineer (R&B)

Spl, Division: Kothagudem

Superintending Engineer
(R&B) Circle Khammam.
