REFERENCES

NH 7 National Highway No. 7

NOTES :-

Highways are in italics and below (milieu) mean sea level.
Contours are approximate.
A relative height, *dr*, represents the approximate height, in metres, between the top and bottom of a steep slope.
The kilometre stone numbers along roads, railways and canals are shown in italic type, e.g., 'a' whereas the kilometre numbers are shown in upright type, e.g., '5'.
The area surrounding the Glacis Rive is liable to change owing to continual fluctuation in the course of the river.
Tide-gates shown in this area, usually cannot water them from July to December.
Crest-breaks and unsaturated roads in this sheet are generally unsuitable in dry season. Formulation to use flows along the canals is required from the irrigation authority.
A relative height, *dr*, marked along a canal, indicates the height of the top of the canal embankment.
