### CONVENTIONAL SYMBOLS

|                                                                         |  |
|-------------------------------------------------------------------------|--|
| Express highway, with toll; toll bridge, with stone stone               |  |
| Roads, interlaid, according to importance                               |  |
| Roads, double carriage; according to importance                         |  |
| Unimproved road, Carriageway, Path-road, with pass                      |  |
| Streams, with track in bed, unimproved, Canal                           |  |
| Dams, masonry or rock-faced, gateways, Weir                             |  |
| River, dry with water channel, with island (islands), Tidal river       |  |
| Swampy roads, Rock Swamp, Reeds                                         |  |
| Walls, lined, unlined, Tube, cul, Strong Tanks, permeable, dy-          |  |
| Embankments, road or railway, Broken ground                             |  |
| Railways, broad gauge, double, single, with station, under canopy       |  |
| Railways, other gauges, stone, single, with stone stone, dy-            |  |
| Mineral line or tramway, Kirt, Cutting with tunnel                      |  |
| Contours with sub-labels, Rocky slopes, Dips                            |  |
| Sand features (Hills) (Hills and mountains) (Hills and mountains)       |  |
| Towns or villages, unimproved, covered, Fort                            |  |
| Hills, permanent, temporary, Town, Antiquities                          |  |
| Streams, Channel, Channel, Mountain, Trough, Trench, Green              |  |
| Lighthouse, Lightings, Sails, lighted, unlighted, Anchorage             |  |
| Map, Vine on plain, Olive, Stone                                        |  |
| Rivers, polymorphic, other, Mountain, Corridor, Bamboo, Other trees     |  |
| Areas, surveyed, wooded, Surveyed trees                                 |  |
| Boundary, international                                                 |  |
| Line, common, common, unimproved                                        |  |
| district, sub-district, tribal or ISLA, forest                          |  |
| Boundary, private, surveyed, unimproved                                 |  |
| Highway, unimproved, station, post, unimproved                          |  |
| Range, mark, geodetic, railway, canal                                   |  |
| Post office, Telegraph office, Overland tank                            |  |
| First house, or inspection, outposts, Court house, Police station, Jail |  |
| Camping ground, Forest, unimproved, protected                           |  |
| Geodesic names, administrative, locality or tribal                      |  |
| Hospital, Dispensary, Veterinary, Hospital, Dispensary                  |  |
| Anchorages, marked, Tourist site                                        |  |
| Forest line, with sub-label, common, with police, unimproved            |  |

## REFERENCE

Arl 2 National Highway No. 2

NOTES :-

Highly tree makes more than above Indian mean sea level  
Contours are approximate.

A relative height of 20 m represents the approximate height in metres, between the base bottom of a steep slope.

Approximate roads and construction in this area are generally missing in dry season. Permission to enter these along roads is required from the local authorities.

The following zone numbers along slopes, ridges, canals, creeks and canals are shown in start type, show type, in this area usually are shown from year 1 to year 6.

Below sea level are the most important, only the important area near bottom.

Forest boundaries are not demarcated but have been surveyed by police out by the forest officials.

The mangrove habitats and contours in this area have not been studied to the height of the tropicalised benchmarks and may not be strictly in accordance with them.

Numbers found bands 1 to 2 metres in height along throughout the above crystals represent area

COMPILATION INDEX

A. Surveyed during 1976-77. Updated for major details during 2005-06.

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about  $\frac{f}{4}$  West in 2005.

1.50 000

CONTOUR INTERVAL 20 METRES
