NOTES

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, e.g., 100, represents the height, in metres, between the top and bottom of a slope.
Towns are numerous throughout the sheet, only the important ones have been shown.
The triangulated heights and contours in this sheet have not been adjusted to the height of the least level bench-mark and may not be strictly in accordance with them.
