Justification for locating the project in forest land

The project namely "Gond Deosar Multi Village Rural Water Supply Scheme" is proposed to provide drinking water to 203 villages of Singrauli district taking back water of Gond dam as the source. To convey water to the command area, the most economical option to convey water is by gravity and since a higher elevation is encountered between the source and command area it is proposed to locate a pipeline in that area so that advantage of gravity flow can be utilized. Pumping and related exorbitant recurring maintenance costs will be saved. Hence permission is requested.
