Published under the direction of Major General R.E. KERR, Director, The Public Works Department,  
1977.

**HEIGHTS AND CONTOURS IN METRES**

**CONTOUR INTERVAL 20 METRES**

\*Water features are shown in blue where  
they possess certain water.

\*Contoured areas are coloured yellow.

\*The interior boundaries of areas of  
Recreation or Protected Forests are shown by  
green outlines.

\*Areas approximate.

\*A broken height, i.e., represents the  
approximate height, in marshy, between the  
top and bottom of the area.

\*Wooded areas are coloured green. Streambeds  
and other vegetation are shown in green; but  
perennially surveyed trees are in black.

(Map Symbols)

Unshaded, sloping in this aspect are generally considered to dry season.  
Troughs, about 2 m. deep are usually covered water (shown as green).  
The area shown in this strip is a small part of the whole area and may differ largely from the actual view.
