NOTES :-

Heights are in metres and above Indian mean sea level.
 Contours are approximate.
 A relative height, e.g., 3r, represents the approximate height in metres between the top and bottom of a steep slope.
 Important Government buildings are shown in black with names.
 Tanks shown dry, in the areas usually contain water from July to March.
 Unsettled roads and cart-racks in the sheet are generally motorable in dry season. Permission to use those along canals is required from the irrigation authorities.
 Canal discharge stones are 1,000 feet apart and every existing fifth stone is shown.
 A relative height e.g., 350 against a well, indicates the total depth in metres.
 3,000-rectangle stations of Bhakra Dam Project Survey are shown as tertiary Bench marks
