JUSTIFICATION

FOR LOCATING PROJECT IN FOREST AREA

Armament Research and Development Establishment (ARDE), DRDO Pashan, Pune is a premier establishment in DRDO. The ARDE Laboratory is functioning in Pashan Pune.

This establishment has developed several stores and services, spread over in different complexes in Kothrud area of Pune. The charter of duties and sphere of activities have been increased manifold. In view of its Defence related services and communication, it is utmost necessary for this establishment to have direct approach/link between its different complexes. The proposed Link Road would not only ensure the communication needs of this organisation but also help the general civilian population by removing the inconvenience caused to them because of transportation activities of Arms, Ammunition and Explosives of ARDE.

The present alternative available with this establishment pass through the busy public places and the distance involved is about 10 Km. This alternative is not suitable and advisable from Defence point of view. There is no other feasible option available with ARDE. The Forest Land proposed for diversion is, thus, unavoidable. Hence, the Link Road is proposed through the Forest Land. The barest minimum Forest Land, to the extent of 0.4620 Ha. is required/proposed for the project.

Date: 01 July 2021
