

Note containing justification for locating the project in Revenue Forest land at Village-Jamgaon in Keshkal Distt.-Kondagaon.

The proposal to establish 132/33 KV Sub-station at Keshkal is approved. By honorable Electricity Regulatory Committee (C.G. Govt.) in respective of providing uninterrupted and better quality electricity to Keshkal and nearby areas which is in Kondagaon Distt. and A.L.W. affected area. This project will also provide Electrical Connectivity to upcoming industries and Agriculture requirement.

In present scenario power supply to Keshkal and nearby areas is through 33/11 KV LT line Vishrampuri, the length of the line is too long, hence, interruptions and line losses are much more.

This project will help to overcome all the drawbacks of 33/11 KV line and can also provide employment to the local workers during the construction. Since the proposed land is best located for the incoming and outgoing of the transmission line with a proper road connectivity, no other alternative place is found suitable for this purpose. Hence the project is formulated at the proposed land.
