

Justification for forest land acquisition

Charanka distry is having total Culturable Command Area (CCA) Of 1250 ha and is passing through forest land Admeasuring 3-53-35 ha bearing survey no 179 of Fangali village, Fangali Minor-2 Charanka distry is having total Culturable Command Area (CCA) Of 1250 ha and is passing through forest land Admeasuring 00-41-27 ha bearing Survey no 209 of Fangali village , Fangali Minor-3 Charanka distry is having total Culturable Command Area (CCA) Of 1250 ha and is passing through forest land Admeasuring 00-99-52 ha bearing Survey no 151 of Aluvas village, Patanka Minor-2 Patanka distry is having total Culturable Command Area (CCA) Of 414 ha and is passing through forest land Admeasuring 00-87-03 ha bearing Survey no 57 of Patanka village, Patanka Minor-2 Patanka distry is having total Culturable Command Area (CCA) Of 414 ha and is passing through forest land Admeasuring 00-98-88 ha bearing Survey no 54 of Patanka village, Garamadi Minor-1 Garamadi distry is having total Culturable Command Area (CCA) Of 385 ha and is passing through forest land Admeasuring 00-38-03 ha bearing Survey no 737 of Madhhutra village, Parsundi distry is having total Culturable Command Area (CCA) Of 23 ha and is passing through forest land Admeasuring 00-29-96 ha bearing Survey no 45 of Madhhutra village of Santalpur Taluka of Patan District, This area is nearer to little Rann Of Kachchh and is also drought prone. Water table of the bores in this area is also very high and the water is also saline which cannot be used for irrigation as well as for drinking. So the farmers of this area fully dependent on Narmada water for irrigation as well as for drinking. After this Forest land there is 580 ha (i.e @ 34% of the total CCA of the minor) of land which is not provided with Narmada water for irrigation due to non construction of Minor in this Forest land patch. Due to construction of this minor the village people will get benefit of irrigation as well as they can also use this water for drinking purpose after necessary treatment. Thus it will help in bringing prosperity of the village people also. So it is essential to construct this Minor in the above said Forest Land.
