

Forest Land or Proposed For Compensatory Afforestation in

No. G544P8
Scale 1:50,000

भारतीय सर्वेक्षण विभाग
SURVEY OF INDIA
54th Edition 2011. Rs. 250/- Price : Rs. 70/-

CONVENTIONAL SYMBOLS

Experimental design

Experimental conditions

- Control
- 100% and 50% of the maximum temperature
- 100% and 50% of the maximum salinity
- 100% and 50% of the maximum CO₂

Experimental results

- pH
- salinity
- CO₂
- temperature
- growth rate
- survival
- biomass

Data analysis

- ANOVA
- regression
- correlation analysis

Conclusions

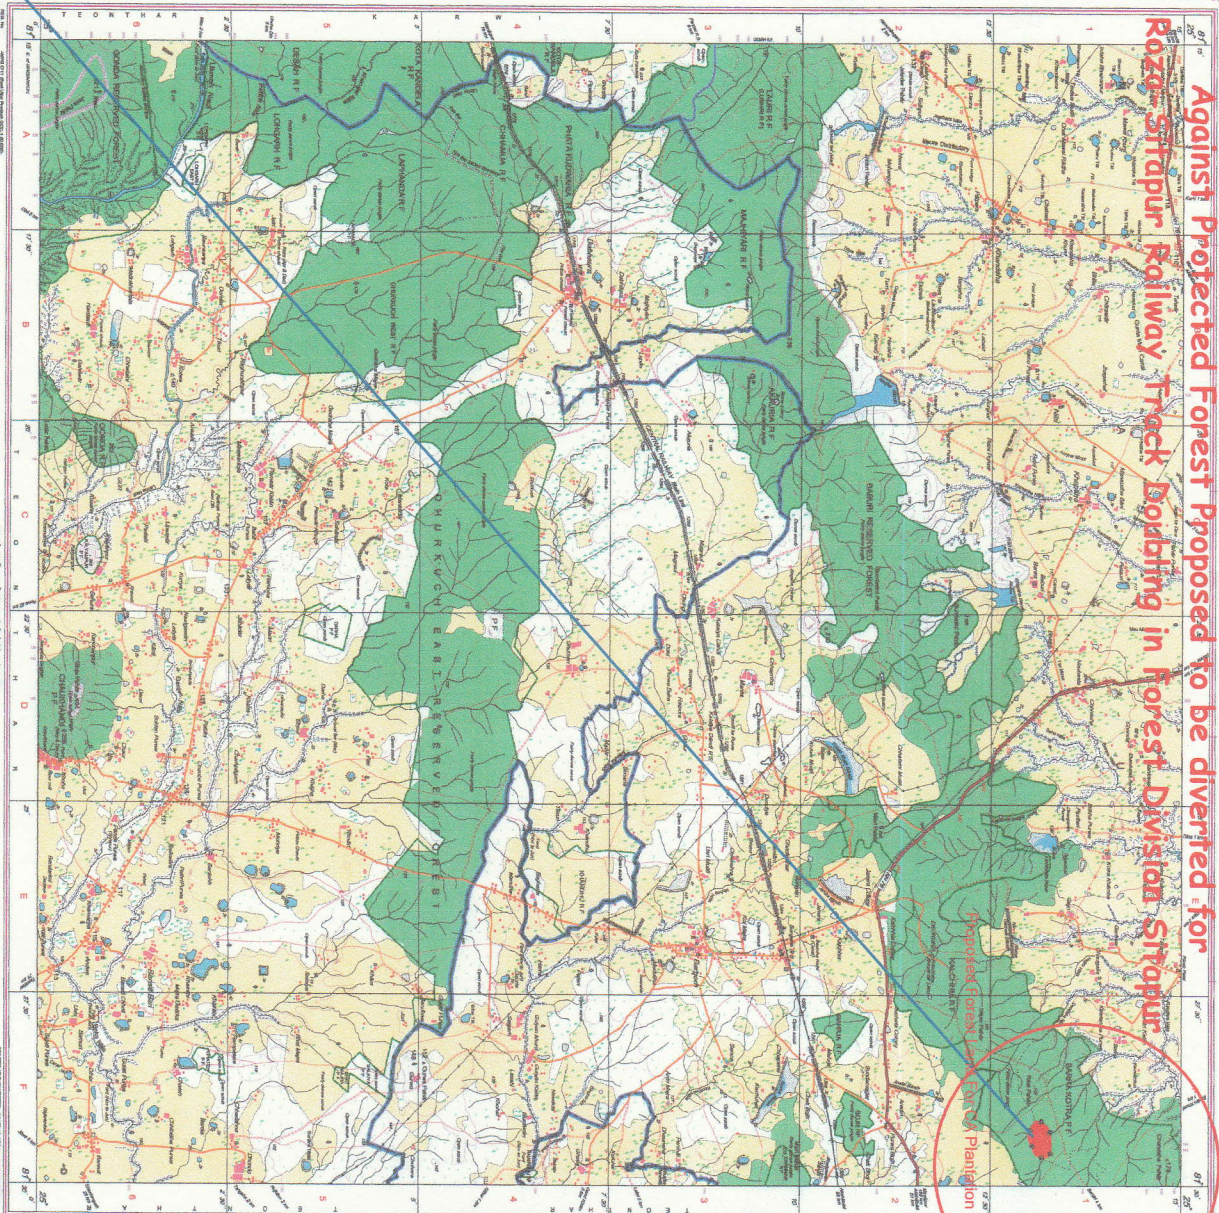

- Effect of temperature, salinity, and CO₂ on the growth rate and survival of the fish
